## Professional Summary

Full Stack Developer with 2+ years of experience in the MERN stack (React.js, Next.js, Node.js, MongoDB). Built 5+ production apps with secure payments, real-time features, and optimized REST APIs. Skilled in Git, responsive UI, and developing scalable, high-performance applications.

## WORK EXPERIENCE

### Full Stack Developer Program Mentor | [TCE Pvt LMT](#) | Oct 2023 – Present

- **Mentored students in Full Stack Web Development (MERN Stack)**, providing guidance on real-world projects and implementing industry-standard best practices.
- **Designed and delivered hands-on training modules** to enhance practical coding, problem-solving, and software development skills.
- **Conducted a Full Stack Bootcamp at [Srishti Manipal Institute of Art, Design & Technology](#)**, leading structured sessions and project-based learning.
- **Provided support in debugging, troubleshooting, and code reviews**, reinforcing best coding practices and improving the quality and performance of student projects.

### Node.js Developer Intern, [Function Up](#) | March 2023 - August 2023

- Worked on backend development using JavaScript, Node.js, Express.js, and MongoDB.
- Developed and deployed multiple team-based projects, focusing on scalable APIs and efficient data management.

## SKILLS

- JAVASCRIPT
- NODE.JS
- EXPRESS.JS
- MONGODB
- REACT.JS
- BOOTSTRAP
- NEXT.JS BASICS
- HTML
- CSS

## EDUCATION

B.TECH - CSE, 2018-2022  
MIT, Ujjain  
CSE - 8.5 CGPA

Higher Secondary S.  
Virgin Mary HSS  
PCM - 8.6 CGPA

High School,  
LokManya Tilak HSS  
Grade - 7.6 CGPA

## PERSONAL PROJECTS

- **Built a modular MERN Plugin Dashboard** with a pluggable architecture, enabling customizable UI components and real-time insights while improving scalability and development speed.
- **Developed a full-stack Inventory System** with dynamic stock tracking, automated updates, and secure CRUD flows to streamline warehouse operations.
- **Engineered a backend-driven E-commerce platform** with product management, secure APIs, and AWS S3 integration, delivering a scalable foundation for high-traffic use.
- **Implemented secure OTP-based authentication**, improving account security and enhancing the user onboarding experience.

## ACHIEVEMENTS

- Student council club member - Class Representative, MIT

## SOFT SKILLS

- Team Collaboration
- Effective Communication
